

Job Title: Frontend Software Engineer

Location: Remote

Type: Full-time

Company Overview:

TechNova is a fast-growing SaaS company revolutionizing project collaboration tools. We're seeking a talented Frontend Developer to help build user-centric interfaces and drive innovation.

Responsibilities:

- Develop and maintain responsive user interfaces using React.js and Tailwind CSS
- Collaborate with designers and backend developers to integrate APIs and components
- Optimize applications for maximum performance across devices and browsers
- Participate in code reviews, design discussions, and agile ceremonies
- Write clean, maintainable, and well-documented code

Requirements:

- 1–3 years of professional experience with JavaScript and React.js
- Proficiency with HTML, CSS, and modern frontend tools (Webpack, Vite, etc.)
- Familiarity with RESTful APIs and version control (Git)
- Experience with testing libraries like Jest or React Testing Library is a plus
- Bachelor's degree in Computer Science or related field

Benefits:

- Competitive salary
- Remote-friendly culture
- Health insurance and wellness stipend
- Learning & development budget

Apply now and help shape the future of collaboration!
